**Basic Chess Openings For Kids: Play Like A Winner From Move One  
Book Pdf ((LINK))**

---

Traditional opening chess books focus on variations in different openings. Charles Hertan states that for beginners and advanced beginners, strings are memorized. This gives them an idea of what the options are. But Hertan failed to do the following. It gives the reader the opportunity to make their own assessments and choose the best move. Hertan is also credited with creating the first computer chess program, which became known as Tuxedo. The program was able to evaluate positions and could find moves that should bring success. However, none of the later Tuxedo programs have been able to achieve this.
