## Fiateperonlinepartscatalogue

A: This page is exactly what you need. Q: Hovering over a text link in magento 2 I am trying to add links that take you to another page when you hover over them. I have tried the following: The CSS is here: `.a-link { width: 400px; display: inline-block; color: #ffffff; cursor: pointer; } .a-link:hover { border-bottom-color: #ffffff; }` While hovering over this link, the border bottom doesn't change to white, as it should be for a link. Also for the span style. Any help is greatly appreciated. A: The name of a style applied to a tag is determined by the first element in a selector. If you add a class to an element, the style will be assigned to that element because the class name appears first in a selector. If you want to modify a style for an element without changing the name of the style, you can add another class to the element like so: `.hoverClass {`
