G-Lock Blog Finder: Find DoFollow, NoFollow and Mixed blogs. Works for Blogs, Articles, Articles and Comments. No installation and easy to use. G-Lock Blog Finder requires: - Microsoft.NET Framework 3.5 - Internet Information Services (IIS) 5.0 - PHP 5.0 - Apache 2.0 - MySQL - PHPMyAdmin - SimpleDB - XAMPP - MSSQL - JQuery - MS Web Services Total 10 PS: The biggest advantage of this tool is that it works without JavaScript, so anyone with a JQuery-less Internet Explorer browser won't encounter any problems. Duncan Graham (15:39:44) Just read the entire review and I love all the options that this software provides. I will use it for sure. Steve Clarke (15:52:22) For me, the greatest feature of this software is that it only allows one comment per blog. Comment spam can be a big issue, but this tool lets you save time by not having to spam the same article, ad infinitum. Shane Scheff (16:22:52) Love how easy this is to use and have done numerous searches with only a few hiccups. Thank you for making it work for us again. Pieter Verschoor (16:32:35) It's the ability to get massive backlinks as well as make comment spam a thing of the past that make G-Lock Blog Finder one of the must have apps for your web marketing strategy. Adrian Santalab (16:45:25) In our lives we are busy and sometimes when we are really busy we cannot find the time to do some blogs. G-Lock Blog Finder solves this very problem. It will get you all the do follow, nofollow and mixed blogs and you can write your blogs and comments. It is also very easy to use. Joe Wilcox (17:09:29) Loved what you all did and found myself, after getting my Black Hat Tools Manual and had it set up and running. Alessandro Cipolla (17:23:54) I bought it and its free for my site. Tim West (17:31:
