A Photoshop screenshot How to Use Photoshop 1. On the left side of the screen, click on the Adobe Photoshop icon. Click on the Edit tab and choose Camera Raw. Click OK. 2. The Camera Raw window will open in the middle of the screen. If you click on the Open button on the top of the dialog box, you will be given the option of importing a raw photo or browsing the files in your computer. If you choose to import a photo, you will be asked to select the file. 3. You should now see a preview of the image. If not, click on File then Open. Browse to the file and select. 4. You will now see a better version of the file. 5. The image can be cropped, edited with the interface tools, or edited with the Photoshop toolbox. For more information about these tools, click on them. Clicking on each of the tools will open a drop-down menu. This helps you select an option easily and saves time. 6. The tools in Photoshop are arranged in the order in which you press them. Every tool has two options in the menu box. Click on the first menu box to adjust one option, then click on the second to adjust the second. For example, to select a brush, click on the first menu box and select a brush size. Click on the second menu box and choose a brush style. The adjustments have the same effects. For example, when you use the Erase tool, your brush options appear as the black area you are erasing. 7. The preview shows the differences between each option. If you use the Erase tool, for example, and click on the Tint box, then the preview will change to the color you selected. The previews are a great way to see which tool will produce the look you want. 8. When you are finished, click OK in the preview window. 9. The Photoshop toolbox is in the bottom left corner of the screen. The menu box above the toolbox is an icon that you click on to open the menu box. When you are finished using a tool, right click on it to close it. To open an image, click on the icon. 10. Click the Select tab and choose Brush. Use the toolbox to select a brush. 11. The brush is in the painting tool box.
