[iSpringTalkMaster] allows you to create and analyze real-life professional conversations. From sales to training, the app provides a wide range of scenarios, characters and backgrounds to help you better practice your skills. [iSpringTalkMaster] also enables you to enhance your vocabulary, using a variety of top and notable dictionaries. [iSpringTalkMaster] automatically analyzes your speeches to help you correct any grammatical mistakes and enhance your presence. [iSpringTalkMaster] includes a study section that can help you learn various lessons and improve your counterargument techniques. Subscription options: [iSpringTalkMaster] is a free app, making it accessible to every user. It may also be purchased and updated separately using in-app purchases. Work & Home Get your work done, with the help of the iSpringTalk Master! Help your employees to improve their communication skills, by conducting professional conversations. While there are many ways you can increase employee productivity, one of the options you cannot go wrong with is helping them become comfortable maintaining professional conversations with clients, partners and business partners. iSpring TalkMaster is an e-learning tool designed to help you create real-life scenarios where you can practice and improve your communication skills. Modern, intuitive and fun UI The setup is fast, straightforward and you can start creating realistic dialogues or scenarios right away by accessing the context menu or the new scene quick button. You can add a character and select a background image from the extensive library that covers a wide variety of situations an employee could be facing. The application enables you to add as many characters as you want and to reconstruct the background, so that the simulation is as realistic as possible. Speaking of realism, it is necessary to mention that the tool enables you to include an emotion suitable for the situation. On a side note, there are types of emotions you can choose from, namely happy, normal, puzzled, unhappy and angry. Comes with a player and a basic editor Even though you can preview the scene you just design, you should keep in mind that you can also analyze it in the dedicated player. This feature can definitely come in handy for a longer script, as you can make sure you are consistent and covered all possible arguments, for example. The player also includes an editor that allows you to change the color schemes for the replies, buttons or text, an option that is useful for highlighting certain counterargument techniques, for instance.

#### What's New in the?

iSpring TalkMaster is an easy to use application designed specifically to help you become a better communicator in just a few minutes a day. How to use: You can access the application via the large context menu located at the top-right of the window or simply by pressing the new scene button present at the top-left of the application window. Once you have added the character you will want and the background image you wish to use, you can move on to playing the scenario using the dedicated player. If you like, you can use the quick button at the top of the application window to focus on a specific argument. In addition to the quick button, you can also access the context menu to see what options the application offers. At this stage you should be able to play the scene to see how the character reacts to certain statements made by you. Once you are done, you can save the scenario, taking care that you choose the.SCENARIO extension. In addition, you can also access the integrated editor to edit the color schemes. In the end, you can access the optional documentation and watch the videos offered for further information on how to use the application. Is it any good? If you need a utility that helps your employees become proficient and fast communicators in a matter of minutes each day, iSpring TalkMaster could very well be the right app for you. This tool has been produced specifically to give your employees the ability to train their skills in a very easy to follow manner and with real-life situations.
