

NOW IF YOU HAVE "Magic" KeyGen use it and enter your "Activation Code". 12. In the window about applications, check both programs and click "Next". 13. Then you need to select the "Install the program" item and click "Next" again. 14. Then select "Install" and click "Next". 15. In the next window, select "Do not install this software on my computer" and click "Next". 16. After that, select "Install" and click "Next". 17. Then click Finish. After that, you can check if the programs are installed correctly. Go to the start menu and run the Windows Update application.
