I am sorry for the late reply, that I was away for a week, but I am back, It is a dark-theme for windows 10 With the addition of a new dark-mode theme "Husky 4" for Windows 10 in this tutorial, we will discuss how to add a light-theme to Windows 10. More than just look good, Windows 10 come with a dark background, dark icons and dark-mode, that make it really dark, almost black on the screen. And for those of you who use an high color settings or just to save battery, you can also configure a dark background in the desktop, icons and calendar. Windows 10 come with a dark background, dark icons and dark-mode, that make it really dark, almost black on the screen. And for those of you who use an high color settings or just to save battery, you can also configure a dark background in the desktop, icons and calendar. Download the zip archive with the theme and extract it to the folder C:\Windows\Resources\Themes\ Make sure the theme is in the Themes directory. Click Start, select All Apps and click All Programs. Select Settings in the All Programs window. Select Personalization in the Settings window. Select Colors. Click the More setting icons on the right to select a theme. Click the Browse to select a theme to install. Click Apply and then OK. Click Exit. Changes in the theme are immediate and should apply instantly after closing the Personalization window. Windows 10 dark themes use a separate dark variant of the Themes folder for each user account. This means that after installing a dark theme, you will find a new set of dark-themed resources in the new folder, which is located at the account level. From a standard account, you cannot access the resources in the Themes folder and they are hidden from the user interface. Instead, a personalized view of the folder is presented to the user by Windows. A user profile, which

System Requirements For Sunshine:
