How to Activate Autodesk Products

Mar 2, 2020 Hello all, I downloaded Revit again on a laptop and for some reason, my user account password is blocked for the download. I tried to change the password but it still won't let me. I tried to call support but of course I can't get ahold of them. I tried to reset the computer to no avail. So how do I deactivate my user account so that I can install Revit again? This is the second time I have to reinstall Revit. Mar 3, 2020 I was trying to download 'revit 15 or 16' and couldn't get it to work so I wanted to get 2017. Any idea what the problem is? Oct 15, 2017 I've tried installing Revit for 2016 and 2018, but can't even download the.msi package (Win7 + Revit 2016 / Win10 + Revit 2018). Using the UAC\Installer\setup-revit-software.exe, and an MD5 check. After an hour of full-screen installation, the installer closes with an error code "Unable to download the package. Please contact your product specialist, or try again later." Oct 24, 2017 After spending a lot of time doing everything in the very thorough and helpful tutorial linked below, I have finally been able to get my first app running on Revit 2016. Windows 10 Pro x64, Revit 2016.2 Feb 21, 2018 Well, I am totally lost now after installing Revit 2017.1.2 on Windows 10 Pro x64 with 16.0.9226.1121.rs1. When I start it up, the first window shows: "Unable to download the package. Please contact your product specialist." However, when I try to open File | New Project, I get an error saying: "You can't open a new project because you don't have a current license for Revit Online. If you are missing a current license, contact Technical Support" Apr 18, 2018 @ZackHeads, I downloaded the Revit 2017.1 for Windows 10, and I was able to run the installation wizard. One of the first steps it said to complete was to register for the revit.com license. I chose the option to download the license and installed, but I didn't think anything was downloaded, so I uninstalled Revit 2017. I then deleted the previously installed

Cannabis use is associated with the most frequent substance-related problems and relatively high burden for the health care system, resulting in an important public health concern. However, little is known about the nature and frequency of problematic cannabis use. The aim of this study was to investigate the distribution of problematic use of cannabis and its correlates within a large sample of the general population in Germany. A total of 12,847 participants (60% female; M age = 44.2 years) completed a web-based version of the Short Alcohol and Drug Use Screening Test (SADUS), which was administered from February 2012 to May 2013. The prevalence of problematic use of cannabis was 8.8% (95% confidence interval [CI] 7.9-9.7). Gender, age, education, financial stress, availability of drugs, depression, antisocial behavior, and antisocial personality disorder were all associated with problematic cannabis use. Interestingly, depressive symptoms were found to mediate the relationship between antisocial behavior and problematic cannabis use (odds ratio [OR] 570a42141b
