I'm trying to understand what it does.Q: Collapsing a document XML using XSLT or XQuery I am trying to transform/collapse a document.xml file into a new one, a smaller one. I have tried to use XSLT and XQuery but

I just can't manage to successfully reproduce the process. I found some stuff on the internet, but it does not work. Can anyone help me? The new xml has 40 lines instead of the original one that had 78 lines. Original file : dunn-test 14 1 0 2013-06-12T12:42:50Z

Config1h Pic Basic Pro Crack .8.9.1 Software Interface. The Internal Revenue Service is currently the largest recipient of DoD funding. The Pentagon accounts for more than half of the overall revenue. The DoD has faced significant challenges, however. The Defense Department is drowning in a backlog of obligations, which can be \$40 billion annually. Additionally, nearly half of all military paychecks are now on hold while the DoD works out logistics to provide a basic level of pay to all their troops. The Air Force

---

has used pay systems to help it get the money back to American taxpayers. Air Force Secretary Heather Wilson recently announced that they've paid \$10 billion back to taxpayers, and that they're committed to paying back another \$1 billion. However, they've only made a slight dent in their overall debt; the Department of Defense owes more than \$14 billion. Republicans have also attempted to fix the way in which the Pentagon makes its budget requests to the DoD. According to The New York Times, the Pentagon "tried to add to the cuts: a 5 percent across-the-board reduction to military health programs and to the cost of building new aircraft carriers." The Republican presidential candidates oppose the plan. Republicans and Democrats  
Republicans tend to favor privatizing the military. One plan would be to provide new technological capabilities to the
