Audi has been on a roll with their new luxury cars, but this one distinguishes itself in a few ways. Find out if this one will turn heads, and maybe get some looks from the "Police Action" Cam. The Audi a8 L to select start (2017) model year, or the most recent model, debuts a new look and keeps on the current trends of this model. The differences of the new Audi a8 L are subtle enough to keep its vintage appearance but it can not be denied that they are there. One of its most striking features is the bigger front headlights that are much bigger than its predecessor and they are reminiscent of the head of an eagle. As the name suggests, the new 2017 Audi a8 L is longer than its predecessor and that

could also be our main observation for its profile. This car has successfully maneuvered its way through the new design by maintaining its familiar appearance for those who love the 2001 Audi a8. The punctual Audi a8 L will suit perfectly those who seek a refined luxury car without giving up its practicality. One thing is true about this new Audi a8 L, it is one of the safest cars in the market. The body structure of this car offers its occupants top marks for safety. It is not just the exterior design that has been redesigned, 0cc13bf012
