It was a dream come true for those who love fantasy action RPGs, to make such a game using the latest technologies and elements. We set out to do what no other fantasy action RPG has been able to do before. We put high emphasis on providing a detailed world. Not only does the world have a vast number of areas, but each area provides its own unique atmosphere, providing a unique fantasy drama and excitement in addition to that of a fantasy action RPG. You will be the most powerful warrior of the world in this game, performing spectacular actions. We strived to make the most detailed and realistic fantasy action RPG possible. We did not make a game for those who shy away from the idea of facing large monsters, but rather a game in which the scale of the entire world is enlarged in order to make you feel a part of the action. The Land of Glory The Lands Between are located in a world that is divided into a number of regions. At the center of each region, a divine power called a god appears. The gods of each region have established a covenant with the people living on their lands, and have entrusted their gods to the people. The gods of each region have also endowed their regions with particular spiritual attributes. As one travels from the center to the periphery, one encounters a number of other lands that collectively form the Lands Between. The Lands Between are not completely open, however, but have both a number of gates that connect the Lands Between and the lands of the regions in the east, and other gates that connect the Lands Between and the lands of the regions in the west. The Lands Between are accessed from the eastern lands and the western lands by a network of roads. A number of different merchants travel by these roads, carrying the merchandise of the lands of the east and west. THE MISSION The Land of Glory (Kathand) which lies in the center of the Lands Between, has been corrupted by darkness. Traveling along the roads that connect the eastern and western lands to the west, the people of the eastern lands must now travel through the Lands Between in order to reach the Land of Glory. In this journey across the Lands Between, you will face your fate. Description

Elderly Magicians doesn't necessarily require you to begin with an arbitrary character, so that you can play it in an MMO style! On the battle field, the damage you can do has much more weight to it than the life points you have. You have to choose a game plan that suits you to survive, now it's time for the adventure! Explore a world where magic transmutation and elemental attack actions aren't bound by time, like you were free to develop your play style and approach to each situation freely.
