In the year of 1858, Japan was plunged into the turmoil of the Meiji Restoration and the arrival of a "gun" signaled the beginning of a long period of prosperity. With the Japan-China conflict over the Burauen Islands still ongoing, Western intrusions into the country continued to worsen. Amidst this, there were still pockets of people living as non-conformists in the Japan-China border regions. The elders in these areas enjoyed the cultural thriving present in their hometowns, but were concerned that the national situation would deteriorate further and the gun would fall upon them next. Looking to make Olive Town and Coyle safe from this, the elders of Olive Town founded the Association of Pioneers to cultivate the land and further strengthen the country. However, many of the townsmen are at loggerheads with the Pioneers and the latter more often than not get caught in the crossfire of their disputes. As the Burauen Islands were all but lost, the Pioneers in the region were faced with a stark choice: Go home and place the gun on the heads of the elders, or stay and prepare for the day when the gun falls on their heads. Facing this uncertainty, the Pioneers prepare for a showdown at the rock wall. The majority of the "gun" veterans were killed at this place, but the younger Pioneers face off against their enemies in a fierce battle. Necessity is the mother of invention, so the elders commissioned some of the older Pioneers to create a weapon that would help the young Pioneers in their time of need. This one day will come upon the Pioneers once again, as the conflict between the Pioneers and the elders intensifies. Drift King: Survival is a racing car simulator full of adrenaline and dangers. At your game's starting point you choose from a cast of 25 legendary cars and find yourself in the world of drift. Right from the beginning you realize that the challenges will be much harder than expected. Your main goal is to stay alive as long as possible. Drift into the path of danger and use your steering skill to survive and win. Your competition will want you dead! You'll have to drive through a sequence of rounds and championships, pass through pit areas and insane curves, but also hundreds of other cars and obstacles. You'll have to use superpowers like drift smoke, rocket boost, nitrous oxide and tires on fire to win first place in the racing world. Your chances of survival are minimal. Use your car's destructive power wisely. Your opponents can be robots, cars, bicycles and many other vehicles. In addition to this, the cars, tracks, drift physics and strategies change as the game goes on. Drift King: Survival should be played on as many devices as possible: a tablet, smartphone and even an Xbox One controller. Requires system software 7.10 or later, minimizes the chance of system anomalies **Drift King: Survival contains content from the previous game Drift King which features similar content - a conclusion could not be determined. What's new in Face Noir:

are known to be appropriate to create a wide range of varying tones from low to high. This high quality pigment is very soft and creamy in consistency because of its high grade base, and it is extremely good for creating strong pigments with high blending ability. "

■■■■★**DRAKELL** - An intermediate coloration between blush and natural markings. Great value for the price - as it can go from warm to cool, depending on your mood. It will vary with a color-chart during the process - but you may not want to change - once the color is perfect, you can keep it!

■■**GOLD**★**The Millennium Jewel** - The main type of pigments for creating the warm tones in the earth, having an extensive range of shades from soft gold to deep red. It applies easily, blends well and wears well. It is a great product that has a lot of pros and cons. ■■**MILK**★**MILK** - Natural ness. Softness. All of the above combined, and it is as close as you can get to the real thing! This is more expensive than the **DRAKELL** - since it is natural - but in order to get the same texture and consistency, you need to purchase a larger quantity.

Use for skin base color - if you need a subtle increase in transparency, it is where to use it first. Color wise, there are a lot of shades, but for frosted flakes, it is all about the "MILK'S"

■■**REGAL**★**Henna Milks** - There are a lot of colors, from yellow to green to red - but all with the exception that "REGAL" has, are soft

and gooey in consistency. This is the type of color to go for in the beginning-s - The pastel ones are too edgy and transparent - and the darker ones are too dull and drying!

☐☐SILVER]★★ALL SILVER - High quality pigments that have a whiteish glow and are usually a high quality paste! They are the result of mixing Millennium Jewel, Henna Milks, and so on - The equal side of them all - Would work beautifully for a paletteJeff Chiu/Associated Press Definitely get your flu shot
