## What's New in the?

Limb microcirculation in two aetiological groups of diabetes. Limb microcirculatory patterns were examined and compared in a group of patients with insulin-dependent diabetes mellitus (IDDM) and in a group of patients with non-insulin-dependent diabetes mellitus (NIDDM). Variables considered were the numbers of leukocytes adherent to the vessel walls and the haemorheology of the circulating blood. Patients with IDDM had significantly higher numbers of leukocytes adherent to the vessel walls and significantly higher levels of haemorheology than patients with NIDDM. Microcirculatory variables were similar in the two groups; however, they may be complementary to each other in assessing the risk of foot ulceration.Q: Remove all elements in a hidden div with jquery I have a hidden div, and I need to remove all the child elements. In my particular case, all of the elements are contained in a div so it looks like this: Text Text Text Text The jquery I have so far does not work. I've tried: \$("div").filter(function(){ return \$(this).is(":hidden") }).get(0).remove(); I've also tried: \$("#div2").children().remove(); I'm not getting any results.
