# Offworld Trading Company - Conspicuous Consumption DLC

---

Offworld Trading Company (abbreviated as O.T.C., the O in OFFWO is silent) is a turn-based space trading game, about defeating your opponents by being a ruthless, suspicious, and conniving entrepreneur. What, you don't know who those people were talking about? (I don't even know those people, come to think of it.) Let's look at a few of the features: The main player of the game is a "Company," which has one mind and one goal, which are two of the most meaningless concepts in the history of things. For purposes of the game, you are tasked with being the Company, and everything else is just fluff. If you can fake your way through enough of this game, you'll become the richest Company in the galaxy, perhaps even the universe, perhaps even the next God. The other player is an "Opponent." These are somewhat more challenging to manufacture and are not required to make the game progress, but you'll need them to make it interesting. If you can figure out how to kill your opponent by being more charming than they are, you'll also end up with the highest score. The game is all about "Trade." Throughout your run, you will interact with the other two things in the universe: planets and other Players. These will serve to trade resources with you, trade money with you, buy your resources, sell you other things, and yes, even participate in fights. The only resources you can create yourself are money, and each planet only has one resource. The planets are all made up of hexagons, and they all have bonuses and handicaps that work a little differently than other games. Each hexagon will make a different number of money or resources, and each planet will also have a resource that is valuable to you and an opposing resource that is valuable to the opponent, and some planets will not be generated at all. Each planet has a durability value that slowly degrades over time, and you can loot things from dead Players at the end of the game. Resources are worth points and are used to buy something from the supply. If the supply is exhausted, you'll go into a "starvation" phase that is a bit more costly. Each building is made up of cells, which is like a stage in a video game:

Overview Buy Dont Miss an Opportunity for opulent self-expression! Conspicuous Consumption dresses up Offworlds five advanced buildings with custom particles and audio. Give your game some classic sci-fi flare with retro-styled versions, or have a good laugh with the goofy fun time versions. Maybe your newfound extravagance will distract your opponent long enough for you to establish an offworld monopoly right under their noses!.Okay, perhaps not, but at least youll look awesome while you try. Features The Conspicuous Consumption DLC comes with two variants for each of the five advanced buildings: Hacker Array: Well, it aint Vegas, but itll have to do. Take your chances and make luck your mistress while styling the goofy roulette version, or embrace the retro feel with an old-style radio tower. Offworld Market: The colors, Duke, the colors! Launch your goods offworld and hope the popsicle rocket doesnt melt, or change to a sleek retro rocket to make your opponents envious of your sweet ride. Optimization Center: Careful not to burst anyones bubble while you optimize your resources in the silly bubble machine version, or give your opponents a little shock with the retro-styled tesla coil. Patent Lab: Research some science inside a giant Rubiks Cube (we DARE you not to get distracted trying to match the sides!), or get ahead of your opponents in a building that looks suspiciously like the robots head from Forbidden Planet. Pleasure Dome: Disco Inferno, baby! Tear up the dance floor inside a giant disco ball, or leave your platform shoes at home and enjoy some space burgers at a retro-styled galactic diner. Just.dont order the special. Gameplay Offworld Trading Company - Conspicuous Consumption DLC is a campaign DLC for Offworld Trading Company. ## **What's new in Offworld Trading Company - Conspicuous Consumption DLC:**

**Review Rating: 4.5/5 Offworld Trading Company - THE DLC**  
Offworld Trading Company is an expansion pack for Starbound. Prior to the developers at Chucklefish announcing this expansion, there were rumours about their intentions to make a big announcement about something involving Minecraft and Starbound: Originally I was quite hopeful about this, more specifically I was interested in Old World Blues (which I guess would have been the Minecraft DLC by this point). Unfortunately this expansion has been mostly cosmetic... meaning a ton of sandboxes, and building a big player owned city. **IMAGE!** If the rumours are true however, this can be topped. In the coming days we can expect Chucklefish to announce their entirely new IP, which is being made by the original creators of Dwarf Fortress. Few things are described yet, but it does seem to be a strategy-game of some kind. This sounds pretty exciting. Is this any good?! **READ!:**

**OFFWORLD: TRADING COMPANY PLATFORM NEWS** I then read some news about actual DLC for another game. This was cute and interesting. Not much was talked about in the nature of content, just that the base game was being updated to run on the Nintendo Switch, bringing it to life in 4K. To my surprise, this is actually happening. Nintendo have announced the games they plan to offer on the console in the near future. Most notable is a game currently called Xenoblade Chronicles 2, but there are also a few others such as Splatoon 2, The Legend of Zelda: Breath of the Wild 2, and Super Mario Odyssey. What a nice surprise, in a non Nintendo way. With one of the new DLC being Pokémon: Let's Go! I can only hope that this pack turns out the same way, because I'm still waiting for a proper redesign on the Switch hardware! I found that I almost viewed this DLC as a big change to the graphics though. There are a lot more buildings, and something approaching a town. This means that the game runs a bit smoother, and has a higher frame-rate. The cities are also

This means that any city will have the same buildings, graphics, mod suggestions, and enemies. Nothing here will be refined according to preference, so building/graphics**
