The industry has been absolutely abuzz with the announcement of Super Mario Maker for the Wii U. After all, the control scheme seems pretty flawless, the game's pretty adorable, and the title has received fairly positive reviews. But the real question with Super Mario Maker is this: can the game achieve that elusive moment of game creation success? Super Mario Maker is the game in which players create their own Super Mario levels. On the one hand, this seems like something reminiscent of the Game Boy Color adventure game, "Super Mario Bros. 3," which was released way back in 1993. But Super Mario Maker is a massive leap forward, and simply using the Wii U GamePad to define the map has so far proven the most interesting aspect of the game. Obviously, it's a big departure for Nintendo to allow players to actually create their own levels. The industry has been waiting for that moment for a long time. But the question remains: will Super Mario Maker become the next Super Mario Bros.? Perhaps not as exciting, but certainly more mainstream. Yet, the question of "Super" in the title is probably a safe bet. Super Mario Maker isn't going to start up a new franchise. So, let's answer this question: will Super Mario Maker make its mark on the video game industry? It should. And, to be clear, the answer is a resounding "yes." Super Mario Maker is a big deal for Nintendo,
