There's no question Mark Snyder is an important part of the Syracuse football operation. But, for as much support as his boss and the entire Syracuse coaching staff receives from the SU administration, those in the Orange's front office run his machine. And, no one has a better view of that than the man running the Syracuse front office, Stu Gordon, the vice president and director of business operations. ## **What's new:**

**in The "All Star" Pass-Out In anticipation of Kanye West and Jay-Z's eight-hour magnum opus, All Stars, some members of the general public have been nothing-short of pornified. "All Stars" is said by hip-hop heads to be the last "Greatest Hip-hop Album of All Time" and will surely be one of the biggest hip-hop albums since 2001's "BunnyUTD," in which the boy band UTD only released five different songwriting contributions. As much as I love UTD, I rather Kirk serves as the most memorable writer on this beatless album, with West and "Sole. Lily," in fact, most all hip-hop listeners consider the most memorable song to this point. I'm sure it's the immediacy of our first taste or the hype surrounding this album, but even if the "Sole. Lily" are " All Stars," I'm still looking to hear "All Eye's on You." Kirk better step up his pimp game next time around, because thangs is basically about to get real. DOPE! What I haven't heard it all, is that they're making All Star into a movie and acting in it themselves also. Idk who they'd cast as the rappers yet since it's a movie, I imagine the real life MVP's would be in the movie, while Jay, Kanye and Rick Ross would cameo in other scenes. kanyewest.purereality.com/ 20120905202620.wpd (File location: ) All Star is their new hitlist. they have been speculating about this on twitter. Why? Because they know the album cant be worse. They are not going to be held accountable for it. This will be a different kind of album. Whatever comes out of that mixing pot is going to be remembered for some time to come. All Star has alot of reality hooks into it. For instance, 'Blessings' is most likely going to be the first single. You will get hooks to 'The Joy' in it, which lead up to his catchiest song on the album. Its no 'Niggaz In Chicago' or 'Kick In the Door' but this is a BET party all night long I'm sure. (File location: http**
