5. VGN_R1_1080p.avi After working on it for a few hours I was able to do this: Thanks for the contribution. A: Seems like you need to first loop over the lines of your original lines.txt file. Then, you can split each line by tab and finally you can split each of those by your delimiter to get your title and number. Then, if you want to have the dates, you can use datetime to convert the date to a format recognized by Python: import datetime dates = [] for line in lines: title, number = line.split('\t\t') date = datetime.datetime.strptime(title.strip(' '), "%Y/%m/%d").date() dates.append(date) From here you can do what you need with these dates. Edit: to make the parser work for a few invalid
