> 30 hours of gameplay • A World to Explore A world where open fields with a variety of situations and huge dungeons with complex and three-dimensional designs are seamlessly connected. Explore this world from a spacious and expansive world map that shows the general overview of the situation, and gives detailed information on various events. S NOTE: *There are a lot of graphic data (such as; monsters, items, NPC, character parts, etc.) that have been fixed with the use of Black Screens. *The field screen during teleportation/connection with other party members is being done, but the limitation of the screen size is 20% smaller. *Within a party, there is a limitation in comparison to the party size (currently, max. 5 party members). *The size of the party will be expanded. *Depending on the update time, there will be certain in-game screens that may not be replaced. *We will be providing updates in Japanese and English through the app store. S NOTE: *For the server selection screen of the app, the number of players at the lobby will be limited to 40 players. If the number of players exceeds the limitation, the server selection is not available. *It is not possible to change the server selection once the server selection process has started. *Players will have the option to change the server selection from the "select server" button in the character creation screen. *If the player has chosen a server (for example, a lobby) that has not yet been created, a pop-up screen will appear and state that server could not be connected. NOTE: >The information concerning the characters on the character selection screen may change. How To Install and Crack Elden Ring:

If you haven't installed "portable mime deencoder" (elden ring.pak) before, go ahead and do so now.

Download Elden Ring downloaded on your PC (eldenring.zip)
Unzip the archive and copy "elden ring" folder to your desktop
Open "portable mime deencoder" using "Start > Portable mime deencoder" in Win XP/vista
Click "advanced" tab, (1) choose "Windows Classic Mode", (2) click "ok"
Click "Test" tab, (1) choose "Run traditional shell", (2) click "ok"
Click "Options" tab, (1) select "open external programs to run as" and select "the customized shell" as the executable, (2) click "ok"
Click "OK"
Close "portable mime deencoder" using "End > Portable mime deencoder" in Win XP/vista
Run "elden ring", (1) select "add game", (2) select "PFIxME" as a game, (3) click "ok" and click on "Basic-context menu" (win7)

is the most tedious part (but NOT the tricky part) of the guide, because it requires you to have Windows 7
