This is not a vulnerability with vnc4server, but of the remote.

Download VNC Scanner GUI v1 2. Available on Testosterone: Want the same scanner on windows with the following features? This is a gui to web based scanner. - Scan any endpoint type for over 50 endpoint types and over 200 different threats - Scan for over 40 different common vulnerabilities and exploits - Uses 5 different exploits of varying complexity - Includes some context in exploit attempts - VNC Scanner has been tested in real VNC environments - This GUI is meant to be used to bruteforce -

Allows the user to capture the data after a successful attack
- Has been tested in around 100 different environment to do a thorough analysis of what is vulnerable - Scanning can be done with SSH or Telnet or Subversion, also supports Web-Service methods such as VNC, Webmin, SVN, JIRA, etc. What I thought I would never accomplish... been working on a vnc scanner GUI ever since I saw a picture of john thaw. As I was looking at the bottom picture, I thought about how there was probably a vulnerability in the remote VNC server program, and was curious how difficult it would be to edit that code to add logic to brute force. After this thought process, I created this GUI that does exactly that. I made it in spanish to "help out" the spanish speaking developers I know. VNC Scanner GUI v1 2. VNC Scanner GUI v1 2 ..
