### **THE KING OF FIGHTERS '97 GLOBAL MATCH Features Key:**

KOF97 will have 3 alphabets: Alpha, Beta and Untouched.

All KOF97 players worldwide, regardless of nationality, can play against each other in this game mode.

The game mode will conduct a round-robin tournament, in which players compete against each other as they go through the alphabets via matches.

Each player can choose his or her own alphabets. The player who wins the alphabets in his/her round will choose the next alphabet (which will usually be an "Untouched" alphabet) by using an in-game menu.

In the end of each alphabet, the best 5 score points (or the total score points of the player) is recorded.

Winning achievements can be unlocked in the tournament.

If the best player within an alphabet has only a point over his/her opponent, the clear advantage will be increased.

The best player among the 3 alphabets, nicknamed "King of Fighters," will be awarded a sports award.

All credits go to the respective owners. KOFY is a competitive fighting game made by SNK in 1987 based on the Neo Geo arcade. SNK has released it for many different systems: NES, Master System, Neo-Geo, Dreamcast, Nintendo DS, PlayStation 2, GameCube and Microsoft Windows. It's a classic game, based on different combats, that includes more than a hundred characters from different historical periods. After a long time, it will finally come back to the PC: It's a compilation of the game "THE KING OF FIGHTERS 97" and the game "THE KING OF FIGHTERS 98" (not available in the USA and other countries). The game has quite some bugs with the sound and graphical compatibility (many characters are shown sometimes with non-perfect colors). The sound can be played in the game's files because SNK didn't release the original soundtrack and also because of the sound engineer who remastered it. The movie is well organized and edited so it's a pleasure to watch it, but the quality is lower than
