you can now publish a P&ID to a DWF set. In case you've never seen DWF sets and (free!) Design Review, I highly recommend that you give it a look. If you've never published a set before, you can do it by invoking the Publish option from the

---

AutoCAD File menu. In the Publish dialog box, click the Add button to add all the P&ID drawings to the set (plus I wanted only Layout views so I unchecked Model). When you click Publish, you get one DWF file with all the

---

P&IDs. Nice. Solving basic problems by using advanced technology is one of the greatest AutoCAD P&ID values. Despite AutoCAD P&ID 2012 has a list of new features, one area that it doesn't have much is technical drafting, but

---

the technical drafting  
tools added in  
AutoCAD 2009 are  
important for  
becoming an AutoCAD  
P&ID software are  
windows. It becomes  
important that  
features, including  
AutoCAD P&ID 2012,  
are compatible with

---

other AutoCAD windows. Almost all latest AutoCAD P&ID 2012 are compatible with the last AutoCAD 2009, so there is no problem for connection. However, some of the interfaces in AutoCAD P&ID 2012 are not compatible

---

with the previous versions. Also when you are using the tools or when you save the documents using this software, you may get some errors or may have to make modifications at your end, but it is not something that is

---

much of a problem.  
AutoCAD P&ID 2012 is  
a graphic platform with  
a bit of a learning  
curve, but if you keep  
practicing, its offers  
tons of benefit.
