Spectrum Analyzer or Spectrogram are a graphical and screen viewer for audio analysis. It is a waveform analyzer that graphs the frequency power spectrum of a waveform. Not just graphing but also playing back the audio wave form and capturing the waveform for a specified time. SoundForge is an open source software and toolset for audio editing and compositing, available on Windows, Mac OS X, Linux and the various flavors of Unix (GNU/Linux and BSD). The SoundForge user interface and modern audio editing tools are designed to give professional level capabilities that are intuitively available to both novice and advanced users. Abode Acoustics is a new multiple-pulse noise counter. This can be used to measure the amount of noise in a number of different ways. In addition it can be used to judge the quality of the sound-pressure levels measured. SRTS Sound Recorder is a screencast software which lets you record from your microphone and screen simultaneously. The two products reviewed in this report are developer tools, and part of a bigger package. If you want to download and try these products, click on "Download" next to the "Free" or "Installer" links at the top of the page. If you want to take a look at the list of available products, click on the link for "Free download and try" near the top of the page. One of the free products, Audacity, is an Audio editor, and it came with some MP3 music audio clips, so you can listen to how it works as well. Another feature of the Mac is it automatically detects and creates an encrypted

volume for you. This container can be shared with other computers using a password that is unique to you. Use the built-in Lion Keychain to store your login information, and a System Preferences command to store your user password. Make sure to use a longer password that includes capital letters and digits as well. ShowHide Utility is designed to help small businesses manage their workspace. It lets you hide files or folders in your Mac to make it more efficient. Simply press the keys on your keyboard a few times until the menu appears. Next, select the feature you want and press enter. Youre good to go. Finally, the Mac OS X 10.10 provides a super simple access to install apps from the Mac App Store. Go to the App Store icon on the dock, scroll down to free apps, and install anything.

Black Ts Tatkal Software 101
