
Free Download !NEW! 2moons Vac Hack

post date: 13:29 05-08-2009 rating: 5 author: gryphon comment: this is the best mmorpg i've ever played. it's a challenge, with a story, where everything is interactive. it's easy to learn, and play, and everything is awesome. it's really great that it's free, and it's an open beta, but it's got a lot of potential, so i really really hope that it gets even better. i'm addicted to it. post date: 19:42 07-03-2010 rating: 4 author: sorabailas comment: i am playing the hack of 2moons for 3 weeks now, and i loved it at the beginning, but unfortunately, after all the days, i am playing the game without fun and i can't turn back to the game. it is really annoying. post date: 11:45 08-08-2011 rating: 4 author: fyynnbarb comment: the graphics is awesome, it runs smooth, and it's really easy to play, but the tutorial is very slow and the gameplay feels a little cheap for my taste. but for a free mmorpg, it's a must try. post date: 15:57 07-08-2012 rating: 4 author: johan_mlg7 comment: 2moons is a great game with a great atmosphere, and i love the graphics and the gameplay, but the game is very cheap, the maps are too small and the game isn't very well balanced, but for a free game, you don't really need a lot of balance, but the game is just perfect for some players, the game is for people that like the other action games, the more brutal the better. post date: 15:11 07-08-2012 rating: 5 author: johan_mlg7 comment: 2moons is a great game with a great atmosphere, and i love the graphics and the gameplay, but the game is very cheap, the maps are too small and the game isn't very well balanced, but for a free game, you don't really need a lot of balance, but the game is just perfect for some players, the game is for people that like the other action games, the more brutal the better.
