Logo Design App, Brand Design App, Logo Design App, Logo Design App, Logo Design App, Logo Design App, Logo Design App, Logo Design App Powerful Logo Maker with Logo Design Studio for easy and accurate logo design. Create your logo in 5 simple steps, just like you create web pages. Don't worry about changing the color, clip art or shapes! With our easy to use Logo Design Studio, you can edit your logos in a WYSIWYG way or download your logo as high resolution images. You can use your logo on business cards, posters, postcards and envelopes, and any printing mediums. Edit your logos with the style you like: you can adjust the color, shadow, font size, text style, and even crop your logos. The logo editor will give you the best output by measuring the logo against a selected background. You can also easily add watermarks to your logos or import your logo from existing documents. Use our logo design template to quickly design logos with the layout you like. After your logo is ready, you can edit the colors and adjust their contrast. More advanced features include exporting your logos to vector formats such as SVG, DXF, EPS, AI, PDF and JPG. With the Logo Design Studio, you are not limited to the number of colors. You can easily change the colors with a click, as you design your logos. Once your logo is finished, you can either open it in Photoshop, and save it as a JPEG, PNG, PSD or PDF file. You can also set the position of your logo in real time, so you can change it anytime you want. Brandee Logo Design Studio is included with this application. Key features of Brandee Logo Designer: ■ Add logo to your website with just 3 steps ■ With our easy to use logo design studio, you can design logos in a WYSIWYG way or download your logo as high resolution images ■ Adjust the color, shadow, font size, text style, and even crop your logos ■ Use our logo design template to quickly design logos with the layout you like ■ After your logo is ready, you can edit the colors and adjust their contrast. ■ You can export your logos to vector formats such as SVG, DXF, EPS, AI, PDF and JPG ■ Set the position of your logo in real time, so you can change it anytime you want ■ Create custom logo templates ■ Other
