## **Duplicates Detective For Thunderbird Crack+ Free For Windows**

Duplicates Detective for Thunderbird For Windows 10 Crack is a user-friendly tool designed specifically for the Thunderbird mail client, enabling you to quickly find and remove duplicate emails from your mailfolders. The program allows you to select the preferred Thunderbird profile and by pressing the 'Scan for Duplicates' button, it will analyze the mailfolders and display the results in two panels, one for 'Originals' and one for 'Duplicates'. Note that when you launch Duplicates Detective for Thunderbird, it will close Thunderbird, if it is running, and reopen it when you finish working with the application. Duplicates Detective for Thunderbird lets you to get rid of copies from a variety of folders and subfolders, in batch mode, enabling you to wipe numerous superfluous emails with just one push of a button. It cleans messages, attachments and embedded graphics, under several user-

defined conditions. This efficient utility can remove unnecessary files, that eat up a lot of space on your computer, while also allowing you to neatly organize your emails and successfully monitor the handling of all messages.

Duplicates Detective for Thunderbird provides you with two comparison methods, 'Standard' and 'Light'. Using the 'Standard' method, messages will be compared in terms of contents (Header, body text) and attachments. The 'Comparison Criteria' section enables you to set which Headers or attachments to exclude from the analysis. The 'Light' comparison method uses message identifiers (message IDs) to determine which items are duplicates or original. This tool helps you automatically clean duplicates upon detection, but you can also discard copies manually, after the scan, from the main window of the program, using the 'Wipe' or 'Transfer' button. Removed items will be displayed in strike-out text. To conclude, Duplicates Detective for Thunderbird is a useful software solution, that enables you to keep your

mailfolders tidy and organized, by removing duplicates and helping you sort out copies from originals. The new Dawn space probe, launched from the Cape Canaveral Air Force Station in Florida on August 3, 2014, during the “Second Launch Window,” has finally entered orbit around the dwarf planet Ceres. The Dawn spacecraft orbited the planet five times in the lead-up to its arrival at Ceres, before it completed a seventh orbit in preparation for final deorbit on September 1. While still seven billion miles (11.3 billion km) from Ceres, Dawn’

## Duplicates Detective For Thunderbird Activation

Duplicates Detective for Thunderbird allows you to quickly and easily find and remove duplicate emails from your mail folders and sub-folders. Using the easy-to-use interface, you can specify which types of emails to include in the analysis, e.g. containing the same body text, attachment or a certain header field. Duplicates Detective for Thunderbird allows you to check, whether any of your emails has been sent or received more than once, i.e. these duplicates contain the same message content. This feature also allows you to get rid of unnecessary attachments and embedded graphics. The application uses the data saved in your Thunderbird profiles (Mail, Junk, Trash, Sent and Inbox folders) for analysis. Using the comparison methods, it allows you to select which parts of the messages should be analyzed for duplicates. The advanced comparison allows you to exclude certain items from the analysis (e.g. attachments and

embedded graphics). Duplicates Detective for Thunderbird cleans messages, attachments and embedded graphics under a variety of user-defined conditions. Using the 'Wipe' and 'Transfer' buttons, you can completely remove duplicates found, or make copies of each message in a batch. This feature also allows you to keep or delete a copy of each message for further analysis. The 'Light' comparison method uses message identifiers (message IDs) to determine which messages are duplicates or original. The program can also be used to retrieve duplicates and duplicates of duplicates, within the same folder. This application will save all detected duplicates to the Inbox folder. To conclude, Duplicates Detective for Thunderbird is a user-friendly utility that lets you quickly and efficiently find and remove duplicate emails from your mailfolders.

Duplicates Detective for Thunderbird Features:

- Easy-to-use interface for specifying the type of emails to check for duplicates.
- Allows you to check for duplicates of the messages you have

received or sent. • Optionally exclude various items from the analysis. • Allows you to check for duplicate emails in the selected Thunderbird profiles and folders. • Makes copies of each message in a batch. • Use the 'Wipe' and 'Transfer' buttons to remove duplicates or make copies of each message. • Uses data saved in your Thunderbird profiles (Mail, Junk, Trash, Sent and Inbox folders) for analysis. • Uses the data saved in your Thunderbird profiles
