System Requirements:

Linux: Mac: Win: eOS: Stadia is primarily available on Windows. If you are using Mac or Linux, I'd suggest checking out the Android release instead. The Mac version is only released for the iPhone. Don't worry though, the Android version works just fine on a PC and is cross platform! The client is currently only available on Windows. However, this is likely to change soon and will hopefully be available on MacOS and Linux as well. Stadia vs HTC Vive? If you don't
