Once considered to be a liability and a distraction in the modern world, Freud's psychoanalytical theory of narcissism has grown in popularity over the last 40 years as its timeless insights. Luke's stuff goes way deeper than the typical magick books. He works on so many different aspects of human behavior and you can really see the attention to detail in his work. I am a sucker for the occult! I especially like how he teaches you to focus on your internal mental state. I also like how the other items are also sold separately. So, it's not just one trick and basically Luke does all the work. His main focus is helping you move to a higher level of self awareness and self-empowerment. He is aware that there is a lot of negative information out there so he also has specific ways to promote positive thought. He does amazing work on posttraumatic stress, and the effects of abuse in society. Mindbrain Dissonance (Mindfulness): This technique is employed by Luke to help you become more aware of your own mind. It is a very effective technique for overcoming mind distraction during tasks. Luke integrates a range of skills in order to ease a person through the ongoing emotional pain of out of balance mind. Since the mind and body are inseparable, this approach has a powerful impact on both..
