It's also worth mentioning that Adobe's price for CS5.5 is a great choice too, as the upgrade from Photoshop CS5 to CS5.5 is only \$75. I am also sleeping on upgrading to the better than 5.2 RC - at the moment I'm torn between exploiting the new interference between my mobile computer and desktop, or not. Having said that, I can't live without the improvements at my fingertips. I'm sure as soon as I feel compelled I'll be muttering parts of the PS CC rumours in my sleep on the night after install. Break weeks.
