Cleaning Utility For Win32.Mofei

The Cleaning Utility for Win32.Mofei is a free cleaning utility for Windows. The program cleans both registry and hard drive. The program is an easy-to-use tool that could remove all traces of Windows worms, Trojans, Keyloggers, Keystroke Loggers, Man-in-the-middle, Spyware, Rootkits and backdoors. It can be used by both users and system administrators to remove spyware, worms, Trojans, backdoors, Keyloggers, keystroke loggers, rootkits, and spyware on both the local machine and network servers. It will scan all hard drives on the local machine and can also scan for infected devices on the network. It can fix registry keys, repair the spyware, add and remove disabled icons, and delete files that were dropped by the worm. All the features can be accessed by either an easy-to-use graphic user interface or command line interface. Both interfaces can be either used separately or combined together. A user-friendly graphic user interface: This version of the program includes both a simple-to-use Graphical User Interface (GUI) as well as a Command Line Interface (CLI). The GUI enables the user to launch a scan and view various aspects of the process, while the CLI is used to create and run a single scan. A command line interface: This version of the program offers both a simple-to-use Graphical User Interface and a Command Line Interface (CLI). The CLI is used to run a single scan.
